**S-130, FIREFIGHTER TRAINING** – (30-35 1/2 hrs.) This course is designed to provide entry level firefighters skills. A version of L-180, Human Factors on the Fireline, is included as part of this course.

**S-190, INTRODUCTION TO WILDLAND FIRE BEHAVIOR** – (6-8 hrs.) This course provides instruction in the primary factors affecting the start and spread of wildfire and recognition of potentially hazardous situations. It is designed to meet the fire behavior needs of a firefighter type 2 (FFT2) on an incident as outlined in PMS 310.1.

**RT-130, ANNUAL FIRELINE SAFETY REFRESHER TRAINING** – (4 hrs.) The four hour Annual Fireline Safety Refresher will provide up to date fireline safety information for firefighters holding Incident Command System qualifications requiring this training per PMS 310-1, Wildland Fire Qualification System Guide. (Offered Saturday and Sunday)

**S-131, FIREFIGHTER TYPE 1** – (8 hrs.) Firefighter Type 1 is designed to meet the training needs of the Firefighter Type 1 (FFT1). This course is designed to be interactive in nature. It contains several tactical decision games designed to facilitate learning the objectives and class discussion. Topics include fireline reference materials, communications, and tactical decision making.

**S-133, LOOK UP, LOOK DOWN, LOOK AROUND** – (4 hrs.) This course is designed to train Incident Commander Type 5 (ICT5) and Firefighter Type 1 (FFT1) to identify environmental factors and indicators of hazardous fire conditions, and how to use these indicators when implementing the Risk Management Process. The course is a CD-based classroom course, based on facilitated exercises.

**S-212, WILDAND FIRE CHAIN SAWS – 12 Student Max.** (24 hrs.) This is an instructor-led course intended to be presented at the local level. The course lessons provide introduction to the function, maintenance and use of internal combustion engine powered chain saws, and their tactical wildland fire application. Field exercises support entry level training for firefighters with little or no previous experience in operating a chain saw, providing hands-on cutting experience in surroundings similar to fireline situations. **Pre-course work is required and can be found at: <http://onlinetraining.nwcg.gov/node/194>**

**S-219, FIRING OPERATIONS** – (16–18 hrs.) This course was developed using a blended approach to learning, meaning that it contains a mix of online and instructor-led training (ILT). Students are required to complete the online training portion of the course prior to taking the ILT. The course introduces the roles and responsibilities of a firing boss (FIRB) and outlines duties of other personnel who may engage in firing operations. The course discusses and illustrates common firing devices and techniques. Although comprehensive in nature, the course work is not a substitute for the dynamic fire environment. The course provides students with important information regarding general tasks required to be successful. **Online course work can be found at: <http://onlinetraining.nwcg.gov/node/178>**

*All wildland fire training presented at the Eastern South Dakota Wildland Fire Academy will meet the standards set forth by the National Wildfire Coordinating Group (NWCG.)*

COURSE	3/4/2016	3/5/2016	3/6/2016	LOCATION
	Friday	Saturday	Sunday	
S-130/190	1800-?	0800 - 1700	0800 - 1700	Tea Fire Station
